

Environmental test ④

Compact ultra low temperature isothermal test

It is possible to evaluate at a wide temperature range from ultra-low temperature (-75°C) to high temperature range ($+100^{\circ}\text{C}$).

1 Specifications

Model	Specifications
MC-711P	Inner Size: W380 × H400 × D400[mm] Temperature : -75°C to $+100^{\circ}\text{C}$

2 Fees

Varies depending on the test time.
Contact us separately.

3 Applications

Environmental testing of
semiconductor components

4 Required information

1. Purpose/Measurement Content
2. Sample information
 - (1) Quantity, shape, energization, weight
 - (2) Handling Precautions
3. Delivery Time
 - (1) Requested preliminary report due date
 - (2) Precautions
4. Further Consideration

We pay close attention to the details of consultations and requests with the first priority on strict adherence. In particular, a confidentiality agreement shall be entered into in the event of a request.
