

Environmental test ⑤

Isothermal test

Can be used in a wide range of fields from temperature characteristic tests to heat treatment and drying.

Program operation (registration of 5-step 1 pattern) that enables setting of operation such as fixed value operation mode, automatic start and automatic stop can be performed.

1 Specifications

Model	Specifications
PH-202	Inner Size: W580 × H600 × D600[mm] Temperature :20°C to 200°C
PHH-201M	Inner Size: W580 × H600 × D600[mm] Temperature: 20°C to 300°C
PS-222	Inner Size: W580 × H600 × D600[mm] Temperature :40°C to 200°C

2 Fees

Varies depending on the test time.
Contact us separately.

3 Applications

Environmental testing of
semiconductor components

4 Required information

- 1.Purpose/Measurement Content
- 2.Sample information
 - (1)Quantity, shape, energization, weight
 - (2)Handling Precautions
- 3.Delivery Time
 - (1)Requested preliminary report due date
 - (2)Precautions
- 4.Further Consideration

We pay close attention to the details of consultations and requests with the first priority on strict adherence. In particular, a confidentiality agreement shall be entered into in the event of a request.
